The historical records that tell about earthquakes, flooding, volcanic eruptions, swaying of the earth, axis shifts, and the earth falling from its location should be seen in the layers of soil examined by the scientists, but they tell us that there has been no fossilization for the past 10, 000 years. What could possibly have caused fossilization and mass extinctions of the fauna and flora if the disasters since the time of Adam of Eve did not cause extinctions and fossilization The scientists tell us that the soil can retain evidence of fossilization and change from millions of years ago, but for some reason, it cant retain evidence of fossilization and change from a few thousand years ago. If the earth was millions or billions of years old, the events of the past six thousand years would have destroyed any evidence of fossilization from millions of years ago. It makes sense that advanced technology existed down through the ages as far back as Adam and Eve, or the earth would still be a Garden of Eden. For the...
