Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Eighth Biennial Report: 1929-1930 To His Excellency, John E. Erickson, Governor of Montana, Helena, Montana. My dear Sir: The services of the ex-officio Montana State Board of Entomology have continued without interruption since 1913. There has been no change in the personnel of the Board. There has been a determined effort to bring spotted fever under control and real progress has been made, for what has been done will not have to be done over again. At the same time, spotted fever is spreading in Montana and in other western states and at the present time is far more of a problem than it was when the Board of Entomology took up its duties. It is now recognized both in Montana and other western states that the problems of Rocky Mountain spotted fever, tularaemia and tick paralysis, all of which are produced by the wood tick of this region, are not problems for Montana alone but apply as well in some twelve other states. Accordingly, in recent months an effort has been made to turn the entire research program of the Board of Entomology over to the United States Public Health Service. It is proposed also to turn over the Hamilton Laboratory to them. This laboratory would thereby become the headquarters for the study of tick-borne diseases in the western states, and the expense of the research work would be borne by the Federal Government. It has been necessary for the Board of Entomology to ask for a continuance of the present appropriation for it is not at all assured that the program to turn over the work to the Government will go through. In...
