Excerpt: . . . 11 postentitlement computations over the last few years have eliminated hundreds of thousands of errors. And, while we have an error rate of less than 1 percent, I should point out that roughly 70 percent of Social Security overpayments in the Old Age and Survivors program are due to the earnings test. While there will be short-term costs to implement the recent action by the House to repeal the earnings test at the normal re-tirement age, in the long term it will free up resources now spent on administering that provision and collecting overpayments. Also, from a policy standpoint, eliminating the earnings test at normal retirement age is the right thing to do. As the baby boomers begin to retire, it is more important than ever that older Americans who are willing and able to work should not have their Social Security benefits deferred when they do work. Because the administration of the Disability programs is more complex, there is more case error in the Disability programs, but accuracy trends...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
