## **PATTERN RECOGNITION: 31ST DAGM SYMPOSIUM, JENA, GERMANY, SEPTEMBER 9-11, 2009, PROCEEDINGS**

Springer. Paperback. Book Condition: New. Paperback. 564 pages. Dimensions: 9.2in. x 6.1in. x 1.3in. In 2009, for the second time in a row, Jena hosted an extraordinary event. In the 2008, Jena celebrated the 450 birthday of the Friedrich Schiller University of Jena with the motto Lichtgedanken ashes of brilliance. This year, for almost one week, Jena became the center for the pattern recognition research community of the German-speaking countries in Europe by hosting the 31 Annual Symposium of the Deutsche Arbeitsgemeinschaft für Mustererkennung (DAGM). Jena is a special place for this event for several reasons. Firstly, it is the first time that the university of Jena has been selected to host this conference, and it is an opportunity to present the city of Jena as offering a fascinating combination of historic sites, an intellectual past, a delightful countryside, and innovative, international research and industry within Thuringia. Second, the conference takes place in an environment that has been heavily influenced by optics research and industry for more than 150 years. Third, in several schools and departments at the University of Jena, research institutions and companies in the fields of pattern recognition, 3D computer vision, and machine learning play an important role. The university's involvement includes such diverse activities as industrial inspection, medical image processing and analysis, remote sensing, biomedical analysis, and cutting-edge developments in the field of physics, such as the recent development of the new terahertz imaging technique. Thus, DAGM 2009 was an important event to transfer basic research results to different applications in such areas. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
